Cellular and Molecular Effects of Low Dose Radiation

Presented by Antone Brooks
Professor Washington State University Tri-Cities

Date: Thursday January 17, 2007
Time: 7:00 am (program starts 7:45 am)
Location: Clarion Hotel - Richland
Cost: \$13 (includes tax & gratuity)

Breakfast Buffet Menu:

breakfast pastries , muffins and croissants , fresh fruit
freshly scrambled eggs
country style potatoes
bacon and sausage links
assortment of chilled juices , coffee, decaf and tea service

Featured Program*:

Dr. Brooks will discuss

- Cell/molecular data with an up-to-date review of the biological research conducted in the low dose region (below 0.1 Gy or 10 rads).
- How these data relate to the scientific basis for current radiation standards.
- Public perception that low doses of radiation represent a serious health risk. This perception is central to the radio-phobia we've all seen.

This Professional Enrichment course runs two hours and is eligible for 4 Continuing Education Credits. For those that cannot stay for the entire lecture, Dr. Brooks will present an introduction during the breakfast portion of the meeting and break before continuing. The two hour course concludes at 10 am.

*Immediately following the program there will be a raffle for a \$50 gift certificate to Anthony's Restaurant.

**For reservations please contact Cindy Caldwell at 371-7831
or Cynthia.Caldwell@pnl.gov by noon Monday, January 14.**
