“A Cluster of High Radon Findings in a New Construction Housing Development in Eastern Pennsylvania”

Bob Lewis, PADEP BRP Radon Program

A number of newly constructed homes in a single housing development were found to have very significant (>3,000 pCi/l) pre-mitigation Radon readings. Mr. Lewis will provide an overview of this unprecedented clustering of very high radon concentrations within a single housing development.

May 23, 2017

Registration time: 5:30 p.m. – 6:00 p.m.

Location: Valley Forge Casino Resort
 Buchanan Room
 1160 First Ave
 King of Prussia, PA 19406
