

DELAWARE VALLEY SOCIETY FOR RADIATION SAFETY

Chapter of the Health Physics Society

**Dose Reconstruction Under the Energy Employees Occupational Illness
Compensation Program**

Presented by

Elizabeth Brackett, CHP
HPS President-Elect

Tuesday, January 24th, 2023

12:00 pm – 1:00 pm

Live streamed

This presentation will give a brief overview of dose reconstruction and then focus on the Energy Employees Occupational Illness Compensation Program (EEOICP), which covers workers at the Department of Energy and its predecessors' facilities. Internal dosimetry aspects of the program will be highlighted.

Liz Brackett earned her BS in physics from UMass Amherst and MS in radiological sciences and protection from UMass Lowell. She's a senior internal dosimetrist with the MJW Corporation, a radiological consulting firm, and has provided technical guidance and assistance, primarily related to internal dosimetry matters, to a variety of facility types. She's currently serving as the Principal Internal Dosimetrist for the contractor team on the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA) dose reconstruction project, providing technical direction and oversight of internal dosimetry issues. Previous employment included the Yankee Atomic Electric Company Environmental Lab and Oak Ridge National Lab.

Cost: **Free** A reminder email with the link to the meeting will be sent out, Monday, January 23rd
