### EIC HPS Revamp!

We're working to revamp and revitalize our local chapter of the Health Physics Society.

The visiting Los Alamos National Lab (LANL) health physicists have provided us a great opportunity to kick off our revitalization efforts with a technical presentation on the response and dose assessment of a Pu-238 contaminated wound.

After the LANL technical presentation a discussion will be led, and feedback encouraged, on how the EICHPS can best support you, the community and the Health Physics profession.

Please forward this invitation to anyone you think may be interested. Membership in the HPS or the EICHPS is not required to attend the June meeting.

If you'd like to subscribe or receive these communications at different email address, please email [EasternIdahoHPS@gmail.com](mailto:EasternIdahoHPS@gmail.com) indicating so.

If you'd no longer like to receive communications from the Eastern Idaho Chapter of the Health Physics Society, please email [EasternIdahoHPS@gmail.com](mailto:EasternIdahoHPS@gmail.com) indicating so.
