Hoosier Chapter of the Health Physics Society: Fall Meeting

October 2, 2008
9:30 AM – 4:00 PM

Stewart Center, Room 310
Purdue University

Type of meeting: Annual Fall Meeting

Members Present: See attached list

Guests: Speakers

Agenda

Registration 9:30 AM – 10:00 AM

Morning Presentations

- 1) Lynne Fairobent (Legislative & Regulatory Affairs Manager, AAPM): "Why Care – A Regulatory Update"
- 2) Mark Pflug (Health Physicist, Purdue University): Preview of Hoosier Chapter Website
- 3) Marc Martz (Director, Office of Radiation Safety, Medical College of Wisconsin & Froedtert Hospital): "Participation in the Wisconsin Society of Science Teachers Convention"

Buffet Lunch East Faculty Lounge, Purdue Memorial Union

Business Meeting

- 1) Bylaws: A quorum of the membership voted in favor of the bylaws that had been previously distributed through email, as presented. Significant changes to the Bylaws include gender-neutral language, annual dues increase, and electronic voting.
- 2) Science Teacher workshops: The Hoosier Chapter will have a booth at an Educator's Fair February 4-6, 2009. Volunteers are needed to discuss and demonstrate radiation facts and application. Patrick Jones volunteered his display for the chapter's use.
- 3) Science Teacher Award: Please send on nominations to the Executive Council for the Science Teacher Award that will be decided on and awarded by the National HPS group.
- 4) Website: It is a very good start. A concern was raised over whether the

“Jobs” link to the National HPS website bypasses the “Member’s Only” requirement. The Chapter also wondered if we could set up a PayPal account. Both matters will be examined by Mark Pflug.

5) Treasurer’s Report: On file

6) Hosting national meeting: The Chapter discussed hosting a national meeting. This seems more possible than before, as the Indianapolis Convention Center will be completed by the time we would host. Birch and Associates will take care of most of the arrangements, but Hoosier Chapter members should still volunteer – we will also make more money the more we volunteer.

Afternoon Presentations

- 1) Sander C. Perle (President, Mirion Technologies): “Radiation Litigation: An Expert Witness’ Perspective”
- 2) Dr. Rob Stewart (Assistant Head of Health Sciences, Purdue University): “Update on the Purdue School of Health Sciences and Radiological Health Science Program”
- 3) Dr. Richard Vetter (RSO, Mayo Clinic): “History, Authority, and Current Issues of the ACMUI”

Visit of Affiliate Booths

- 1) Mirion Technologies
- 2) Landauer
- 3) PerkinElmer
- 4) ThermoFisher Scientific
- 5) Laco

Closing Remarks

Thank you to all who helped make this meeting possible.
