Nominating Committee / Officers for the Board of Directors:

We are still looking for volunteers to serve on the nominating committee, who will help recruit the next round of candidates to serve on the Board of Directors. We ***strongly*** encourage managers and those with large networks in the Health Physics community to serve on the nominating committee.

Being a part of the nominating committee is a great way to serve the Chapter without serving as an officer for a two-year term.

Without the next generation of volunteers to serve as officers, our Chapter cannot grow and thrive into the future. (and serving on the board is a fantastic way to build relationships with others in the field!)

If you are interested, please email ncchps@gmail.com or reach out to any of our current board members directly.

Early interest for Board Positions is always welcomed!

Warmly,

The Board of the NCCHPS
